

THE IDEAL PUNCH FOR START CONNECTORS
AND SADDLES FOR GARDENERS AND
IRRIGATION SYSTEM ENGINEERS

Twist Punch

*A Hand tool that
enables making
holes of
12 / 15 / 18 mm
in polyethylene
piping without the
need for an electric
or battery drill*

Advantages:

- Easy to use
- Comfortable to hold
- Cheap

The tool can be used also after the saddle has been mounted on the pipe, and is suitable for pipes up to 4mm thickness.

Operation Instructions:

- The pin that centralizes the hole should be pushed into the pipe.
- The blade is penetrated into the pipe in a circular clockwise movement.
- The waste plastic is retracted from the blade and pin by pulling the body of the tool in the opposite direction from the handle using both hands – see drawing.
- At the conclusion of the work, protect the blade from damage with the cover that is inserted into the recess in the handle while the tool is in use.

Caution - sharp blade + pin

Existing Models:

- TP12
- TP15
- TP18

The blades are permanent and not interchangeable.
