

# Envie de confort?

## Le nouveau masque complet 3M série 6000

Respirer plus facilement à l'intérieur de votre masque tout en restant protégé. Voilà ce que vous propose 3M avec sa nouvelle soupape sur les masques complets de la série 6000. Cette nouveauté vous assure plus de confort, une maintenance limitée et une efficacité optimale.

Ultra-léger, ajustable grâce à ses 4 points d'attache réglables, parfaitement équilibré sur le visage, les masques complets de la série 6000 assurent un grand confort, même pendant de longues périodes de port.

Et vous pouvez toujours choisir parmi la large gamme de filtres adaptés à vos applications.

### **NOUVEAU :**

Expérimentez le confort de notre nouvelle soupape expiratoire sur les masques complets de la série 6000.

### **Nouvelle soupape expiratoire 3M Coolflow™ :**

- Une respiration grandement facilitée
- Moins de chaleur et d'humidité
- Un flux d'air optimisé
- Communication facilitée
- Durée de vie augmentée
- Extrêmement simple à nettoyer

## Les masques complets 3M Série 6000 : 6700S, 6800M, 6900L

Innovant, robuste et confortable

### Un design fonctionnel

- Une pièce faciale en elastomère, douce et hypo-allergénique
- Manipulation et réglages aisés grâce aux 4 points d'attaches
- Extrêmement léger : 400 grammes pour votre confort

### Visière large

- Large champ de vision
- Visière en polycarbonate, résistant aux rayures et aux impacts selon la norme EN166:B

### Product Details

Product name:	Gas and Vapour Filters.
Models:	3M 6051 (standard industrial product) and 3M 06911 (Automotive Aftercare Division version). 3M 6055 (standard industrial product) and 3M 06915 (Automotive Aftercare Division version).
Product type:	Gas filter(s) and combined filter(s).
Technical Specification:	Harmonized European Standard EN 14387:2004
EN 14387 classifications:	3M 6051 and 3M 06911: A1. 3M 6055 and 3M 06915: A2. (Each model is designed for use in a twin filter configuration).

The product assessments were based on BS EN 14387:2004, the English language version of EN 14387:2004, respiratory protective devices – gas filter(s) and combined filter(s).

The Filters are designed to protect against gas and vapours. When used in conjunction with a 3M specified pair of the same type of 3M Particulate Filters and their associated retainers, the Combined Filters protect against gas, vapours and particles. The Filters and Combined Filters are designed for use with the 3M 6000/7000/7500 series of Half Masks and the 3M 6000/7000 series of Full Face Masks. The Particulate Filters and the Masks have been independently CE Certified.

### Packaged variants

In addition to the products referenced on this Certificate, the standard industrial products may also be sold as market specific packaged variants. Such variants will be identified by an alpha suffix added to the model reference and the Technical File will be updated with the appropriate information.

### Kits and packouts

The products referenced on this Certificate may also be combined with other 3M products into a kit or packout. There will be no change to the products but the user information may vary. In such instances the Technical File will be updated with the appropriate information.

### Certificate Amendment Details

Technical File References: TF0096 (Models 3M 6055 and 3M 06915)  
TF0098 (Models 3M 6051 and 3M 06911)

### Certification Administration Record and internal BSI reports related to this Certificate:

Issue date	Comments	BSI Report No.
24 April 2007	First issue of this Certificate for models 3M 6051, 3M 06911, 3M 6055 and 3M 06915. These models are the subject of BSI Certificate 69147 which references EN 141:2000, the previous Harmonized European Standard for the product types.	0086:07:1994 & 0086:07:1988.

### Certificate validity

The Certificate holder is responsible for ensuring that the Notified Body is advised of changes to any aspect of the overall processes utilised in the manufacture of the product, failure to do so could invalidate the Certificate in respect of product manufactured following the introduction of such changes.

The validity of the Certificate is also dependent on the maintenance of the EC quality of production by monitoring system, PPE Article 11B, as referenced on BSI Certificate 00347.
