

# New Features

## CANARIA<sup>+</sup>

**+46% Autonomy**  
Five months of continuous use.  
No need for recharge.

**Silicon Band**  
More resistant and hygienic  
with no water or sweat retention.

**Intensified LED Signal**  
Double LED signal  
every 15 seconds.

**Alert with Vibration**  
Clear alert even in noisy  
environments or in full  
body workwear.

**HQ Sleep Mode**  
Upgraded algorithm for “not wearing”  
high quality identification.

### Circular Economy

CANARIA PLUS is 100% recyclable. Recycling is made in cooperation with the manufacturer, your distributor or by following the arrangements taken locally or nationally for the recycling of electronic devices.

### Spec

- Dimensions ..... 27mm (W), 13mm (H), 43mm (D)
- Weight ..... 20g
- Materials ..... ABS(main unit), Silicon, stainless steel (strap)
- Waterproof ..... IP67
- Heat resistance ..... ~80°C
- Vibration and shock resistance ..... ISO 8662
- Alarm ..... 74db
- Battery ..... 5 months of continuous use

Made in Japan

- \* Heat Warning Watch CANARIA PLUS is not a medical device.
- \* If you do not feel well, please consult a physician as soon as possible.
- \* Protected against temporary immersion up to 1 meter deep for 30 minutes.
- \* Do not leave it in a hot vehicle.
- \* Do not store the product in a space subject to high heat or high heat variation.

### Precaution of Use

- Heat Warning Watch CANARIA PLUS™
  - Do not pull the start button.
  - The color of the product may change during use.
  - Avoid shocks, falls or twists which could damage the product.

THE SMART SOLUTION TO  
PREVENT HEAT STROKE

# Heat Warning Watch CANARIA<sup>+</sup>

# Global Praise

## VOICES FROM AROUND THE WORLD

Our solution is recognized internationally for the quality of protection it provides against heat risk in a variety of settings- from work and sport to the daily lives of children and the elderly. Contact Biodata bank or our partner distributors for more information.

“ A concrete solution for preserving employees' health and improving their working conditions  
Ets Angel, France

“ A revolutionary invention!

Antena3 News, National Television, Spain

“ One of the best preventive measures in the face of the constant heat waves of recent summers.  
María José Lozano, Técnico Prevención Riesgos Laborales, Worldwide Flight Services (WFS), Spain

“ The use of these bracelets should be mandatory.

Pablo Medina Sánchez, Técnico Superior, LECTA, Spain

“ We can see the relevance of **Canaria** as a device to help prevent heatstroke  
OPP-BTP\* study, France  
(\*French Professional Organisation for Prevention in the Construction Industry)

“ **CANARIA** protects against heat stroke and, by wearing it, constantly raises awareness of heatstroke prevention.

Tokyo Power Technology, Fukushima Nuclear Power Plant Office, Japan

### Simple Use

Press the power button. 5 months of autonomy, without recharge!

**Put on when you are at rest, before any activity. Green LED is blinking regularly.**

Real-time evaluation of thermal risk. You are protected!

Heat risk detected: audible alarm, red LED flash and vibration.

### Action When the Alarm Rings

LED flashes red

Sound, visual and vibration alert.

Have a break, hydrate yourself. Even without symptoms, be careful!

LED flashes green

LED flashes back to green, you can safely go back to your activity.

#### Patent

Patented technology by Biodata Bank of continuous and non-intrusive monitoring of the internal body temperature.

#### Recommended

French OPP-BTP\* recommends CANARIA since 2022 after conducting a national test with more than 800 participants. \*OPP-BTP Construction and Public Works Professional Prevention Organization.

#### Market Leader

With more than 400,000 units among over 2,000 companies in Japan and Europe, CANARIA is the leading solution for heat stroke smart prevention.

#### Privacy First

Respect for privacy, no personal data is transmitted. CANARIA does not have any communication module. Biodata Bank does not collect personal information.

#### EXTERNAL HEAT DOES NOT TRIGGER CANARIA PLUS ALARM

The alarm system is not triggered by external high temperature but by your own core body temperature, in case an abnormal elevation is identified (hyperthermia).
