

ÉCHELLE D'ACCÈS DALLE

L'ÉCHELLE SÉCURISÉE POUR ACCÉDER AUX CHANTIERS

L'échelle d'accès dalle a été conçue pour accéder en toute sécurité aux dalles supérieures de bâtiments en construction (balcons, étages...). Le portillon d'accès, les rampes et marches de 80 mm offrent un grand niveau de confort et de sécurité.

Classe	Professionnelle
Usage	Ultra intensif
Utilisation	Sol plat
Matériau	Aluminium
Charge maxi [kg]	150
Garantie [ans]	5
Recyclable jusqu'à [%]	92

Roues pour faciliter les déplacements

Marches antidérapantes 80 mm

Anneaux de grutage en série

Plate-forme d'accès confortable 0,5 x 0,5 m

Échelle adaptable en hauteur

Portillon de sécurité

Platine de fixation 10 mm [vis non fournies]

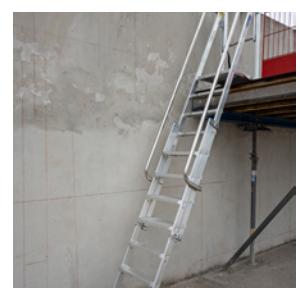

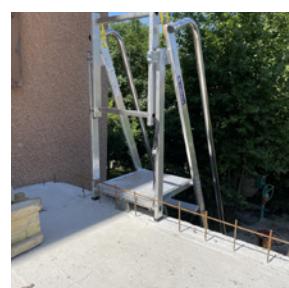

Modèle présenté : 02451208

- 3 modèles télescopiques disponibles pour s'adapter à tous les chantiers
- Permet d'accéder en toute sécurité à une dalle
- Fixation possible au sol ou à la dalle grâce à des platines spécifiques (diamètre 10 mm)
- 2 rampes pour faciliter et garantir la sécurité à la montée et à la descente
- Sécurité optimale grâce au portillon à fermeture automatique
- Portillon et plate-forme repliables pour minimiser l'espace de stockage et faciliter le transport
- Plate-forme d'accès confortable 0,5 x 0,5 m
